

101. (previously presented)The system as claimed in claim 78, further comprising:

a doorbell chime for audio annunciation of a visitor to an occupant of the room, said doorbell chime disposed at said switch assembly; and

a doorbell button in operable communication with said doorbell chime, said doorbell button operably connected with said indicator and operable from outside of the room by the visitor.

102. (previously presented)The system as claimed in claim 57 wherein:

said indicator further comprises indicating said occupancy condition in response to a request; and

said system further comprises a switch configured to be actuated from outside of the room for generating said request.

REMARKS

In the present amendment, claim 94 has been cancelled as it was a redundant claim. Claim 94 is identical to claim 73. The specification has been amended to correct an inadvertent typographical error. The hidden switch is designated 88 in the drawings and throughout the rest of the specification. 90 is the designation for a connector.

Claims 19, 20, 22 - 27, 31, 34, 35, 37 - 85, 87 - 93, and 95 - 102 are pending in the present application.

It is submitted that this amendment after final puts the application in better condition for appeal, whereby entry thereof is respectfully requested.
